Gentlemen,

I beg to send you my list of Seeds and Plants, natives of AUSTRALASIA and the PACIFIC ISLANDS. The orders for Palm Seeds are booked as they come in, and shipped at once as soon as harvested. We pack in the best way, and the Seeds arrive in fine condition as a rule. No seeds are sent unless they are of the purest quality. Remittance with Order is required from all unknown Customers, or reference to a good London, American, or Australian Firm. Your order shall have the best attention of

Yours truly,

JOHN G. TRESEDER.

N.B.—My London Agents are Messrs. WATSON & SCULL, 90 Lower Thames Street.

My American Agents are Messrs. BLANC & CO., 314 North Eleventh Street, Philadelphia.

From whom all information can be obtained.

Any Australian Seeds or Plants not in this list can be supplied at the lowest trade prices. All Accounts are due two months after receipt of Goods.

If Cash is sent with order, 10 per cent. will be allowed off the Invoice, 5 per cent. if remittance within 3 months of date of Invoice.

Orders for Palm Seeds and Plants should be sent as early as possible on receipt of this list.

<i>Areca Baueri</i>	0	2	0	0	10	0
This Palm is considered to be one of the loveliest of the Arecas.						
„ <i>Sapida</i> (very hardy for cold house)	0	1	6	0	6	0
„ <i>Monostachya</i>	0	1	6	0	10	0
Very beautiful Dwarf Palm, quite distinct but rather slow in growth, very dark green, and altogether a very beautiful variety for decoration.

„ <i>Macrophylla (New)</i>	0	2	6	1	10	0
<i>Kentia Forsteriana</i>	0	2	6	0	18	0
This Palm is one that fringes the island with green; is most graceful, and the hardiest of its class. For table decoration there can scarcely be its equal. Gas does not seem to affect it.						
„ <i>Australis</i>	0	2	6	1	0	0
„ <i>Belmoreana</i>	0	2	6	0	18	0
This is the Curly Palm, and differs from K. Forsteriana only in its leaves having a tendency to curl under, which is peculiarly beautiful.						
„ <i>Canterburyana</i>	0	9	0	3	15	0
This gigantic Palm is found on the higher parts of the Island. The leaves are of a very bright green, and large; the seeds are a great size; and altogether this Kentia, though not so suitable for small houses, should accompany the other varieties.

The Giant Torch Lily of Australia. A magnificent plant with long Dracena-like foliage. It throws up a lofty spike of flowers like an immense fiery torch, the stem of which is often 12 to 14 feet high—a beautiful and distinct plant for a semi-tropical garden. The tubers, which are four to six inches in diameter, carry well; price from 6s. to 9s. per dozen, £2 per 100 and £4 per 100; smaller tubers 20s. per 100.

The Australian Tulip or Waratah. A shrub growing four or five feet, with large green, cut, glossy leaves, bearing, upon the extreme point of the shoots, flowers of a deep crimson colour resembling a double tulip, but four times the size, being four or five inches across. Is quite hardy in an ordinary greenhouse, loves the side of rocky mountains with poor soil. Plants of these are quite safe for export, 12s. doz., £4 per 100.

PALM PLANTS Grown for Export.

These plants we pack in strong cases with double canvas covering; they travel safely and come far less expensive than when Wardian cases are used.
